### **2007-09 Arctic Cat Crossfire 800 Lightweight Muffler 131-129 High Temp Black**

Straightline's lightweight mufflers are one of today's standards with low decibel readings and a great low tone. Muffler lose 7+ lbs on your Arctic Cat snowmobile.

#### **Installation Instructions**

Best to start with removing the side panel of your machine. Remove the old muffler. Remove the rubber O-ring installed in the stock muffler and install into the Straightline Performance mufflers as shown.

Install the new lightweight muffler into the stock locations and install the clip and pipe springs.

Be sure the muffler has no manufacture defects. If the muffler has been run/used there are no warrantees for fitment.
