

**2010-17 Ski-doo 800 E-TEC Y-Pipe
134-160**

Installation Instructions

Remove stock y pipe; be sure to keep all stock springs.

Be sure the Straightline y-pipe has no manufacture defects. If the Y-pipes has been run/used there are **no warrantees** for fitment.

Fuel programming Requirements

There are no fuel programming changes required to run the Straightline E-TEC Y-pipe.

Clutching – Operating PRM with the Straightline E-Tec Y-pipe is 8000-8050 RPM. (5hp gain)
The Straightline Y-pipe also improves the torque band 4-5 lbs of torque from 7400-8100 RPM
Straightline recommends adding an Adjustable Pin kit to your snowmobile to help enhance the power. Kits are available from Straightline or your local Ski-doo shop.
