

**PLEASE READ ALL INSTRUCTIONS BEFORE INSTALLING KIT.**

*WARNING: Before any installation of this RSI product you need to verify your snowmobile is operating and working correctly. Verify stock grip heaters, switches, headlight bulbs, thumb heater, electronic reverse, and multi function gauge is functioning normally. If any of these things are not functioning normally they must be fixed before you install this RSI product.*

**INSTRUCTIONS FOR USB-U  
DUAL USB POWER CABLE UNIVERSIAL**

1. The 2 USB CABLE END ports need to remain inside a storage device such as a bag or storage compartment. **DO NOT MOUNT OUTSIDE A STORAGE COMPARTMENT!!!!** Route the USB cable from your 12-14V DC POWER SUPPLY to your bag/storage location making sure it is secured out of the way from any moving parts or EXTREME hot parts or areas.
2. Using supplied Velcro, secure converter box so it does not BANG around during the ride.

**12V Power Supply: Most snowmobiles have a 12V power supply on the machine. Any questions please have a certified mechanic install the USB-U**
